

Assignment 3

Use the attrition dataset to answer the following questions. As always, your assignment must be turned in as a .Rmd file.

1. Create a graph that shows the distribution of monthly income.
2. Create a graph that shows the average level of monthly income by field of education.
3. Create another graph that shows average level of monthly income by field of education and gender.
4. Create a graph that shows average levels of monthly income by field of education, gender and job level (scale of 1-5, highest ranked employees are 5)
