Assignment 7

For this assignment, I want you to use the Census ACS API to download and plot data. Complete the following steps:

1. Download data for all of the zip codes in Los Angeles county on education levels.

2. Compute the proportion of the population that has a bachelor's degree or above by zip code.

3. Download data for all of the zip codes in LA county on family income by zip code.

4. Compute the proportion of the population that has family income above 75,000.

5. Plot the proportion of residents with incomes above 75,000 as a function of income.
